

How can you visualize things which don't fit on a page?

Here are some regimes:

Literal:

How do you draw a high dimensional manifold?

Abstract:

How can you put a face on a mathematical abstraction

Cartographic:

How do you map the landscape of a field of math?

Tip 4: Add eyes

- Hijacks human emotional and social understanding
- Provides layer of emotional interpretation
- Lookit those eyes how could you say no

Hitchin moduli space

**Desingularized
Hitchin moduli space**
