TOP NINE Tips and Tricks for drawing mathematical ideas with pedagogical and emotional content

(numbertwo!)Shocksixwillshockyou!

TOP NINE Tips and Tricks for drawing mathematical ideas with pedagogical and emotional content

(number six will **SHOCK** you!)

How can you visualize things which don't fit on a page?

Here are some regimes:

Literal:

How do you draw a high dimensional manifold?

Abstract:

How can you put a face on a mathematical abstraction

Cartographic:

How do you map the landscape of a field of math?
